

Health & Safety Pathways Awarua

Do you understand all the rules and regulations around keeping yourself and others safe at work?

Pathways Awarua helps make sense of the *Health & Safety at Work Act* with free online learning that makes it easy to learn and put into practise everyday.

What is Pathways Awarua?

Pathways Awarua is a free, fun and easy way to improve your numeracy and literacy skills online, within a real life context.

The Industry Training Federation and Worksafe New Zealand contributed to the development of the **Health and Safety** pathway to provide an opportunity for workers to learn the principles of the *Health and Safety at Work Act* and their role in workplace safety.

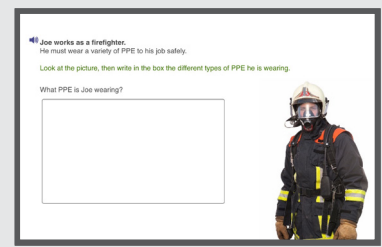

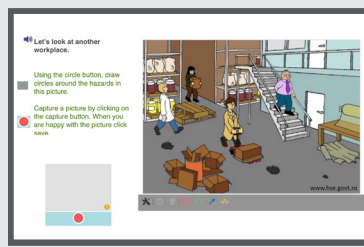

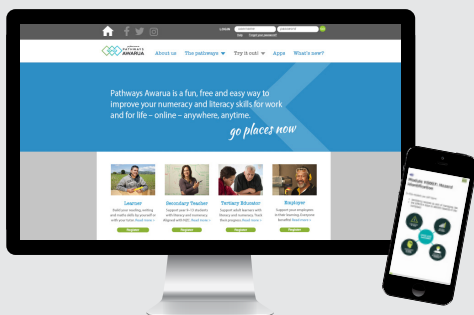

It's all about keeping yourself and others healthy and safe!

Anywhere, anytime.

Pathways Awarua is available on your computer, tablet, or smartphone.

You can download the **Health & Safety** app for your tablet on the App Store and Google Play. Once you log in, the app works with or without an internet connection, giving you more opportunities for learning – anywhere, anytime.

There are other pathways available to help you improve your essential skills in reading, writing, listening and maths too.

How do the modules work?

The modules on the **Health & Safety** pathway cover workplace inductions, hazards, risk assessment and reporting, safety equipment, incident reporting and common risks.

The modules are engaging and interactive. You can read them yourself, or the audio can read them to you.

You get instant feedback. If you get an answer wrong you get help, and you can try as many times as you need to.

You learn at your own pace. Earn points, track your own progress and gain certificates as you go. And it's simple to register and get started!

How do you register?

Go to **www.pathwaysawarua.com** and click on the learner registration button. Choose a username and password.

If you have a 'join code' from your educator/employer enter it, otherwise choose the 'no join code' option. Now you can select the **Health & Safety** pathway and start learning.

Need help? There is live chat to offer support.
